**LÁMPÁS**  
[laam-paash]  
(Lamplighter)

**KŐMŰVESFRÖCCS**  
[ker-moo-vesh-frerch]  
(Mason's spritzer)

Fröccs has been a Hungaricum since 2013. Its essence is not so much the quality of the wine (of course, bad wine will only make bad fröccs) or the carbon dioxide content of the soda water, but much rather the ratio of soda water to wine, which is wonderfully expressed in the names of the various fröccs, which are in themselves a good demonstration of Hungarian self-irony.
